

Barwa Financial District, Qatar

PROJECT INFORMATION

City: Doha

Country: Qatar

Project Startup: 2010

Project Completion: 2012

STREAM AWCS

Type of AWCS: Gravity Vacuum System

Total Pipe Length: 800m

Number of Fractions: 1

Estimated Waste per Day: 12 metric tons

The Barwa Financial District is a giant project conceptualized to serve the global, regional and local financial sector of Qatar. The Financial District, a leading destination in Qatar is an ensemble complex of art buildings for ten-stories, grouping individual and adjacent buildings together in a harmonious blend of architectural excellence. These buildings with an average of 20 to 25 floors per structure will be built on an approximately land mass of over 380,000 sqm. Crowning the Barwa Financial District is a 45-storey high tower, which is well on its way to being one of Doha's landmark sights and an icon of the city's skyline. Barwa is also delighted that the complex will be amongst the 1st certified sustainably designed construction in the Middle East region. The Barwa Financial District will be located in the new business city of Doha, West Bay. Cosmopolitan West Bay holds government and ministry offices, an up-market residential area as well as major shopping malls. The Financial District site covers an area of over 71,600 sqm.
