Plaza Arcadia is a stylish mixed development located at the heart of Desa ParkCity in Kuala Lumpur. Plaza Arcadia aims to amuse and surprise visitors with its top address for living, shopping, dining and amusement. It offers vibrant and open-air environment that surround 8 blocks of 4-storey buildings. STREAM Automated Waste Collection System has been selected to provide a convenient waste disposal method for their total 428 units of freehold shops, offices and SOHOs units. There is a total 41 load station within the development with a total pipe length of 1200m. With STREAM systems in place, there is no more odour and pest issues, waste can be removed regularly for a healthier and cleaner environment.
